ECUADOR

Dear President,

Thank you for taking the time to read this letter.

The indigenous people in Your country lack drinking water, food , medical care, and Covid-19 tests kits.

In April 2020 an oil disaster and seasonal floods have even worsened the situation.

Please make sure that the indigenous population of the Amazonas area in Ecuador can participate in the political decision-making concerning how the Covid-19 pandemic is dealt with.

The government is also obliged to provide sufficient financial means to protect the affected people, and to respect their rights and needs.

Thank you for Your commitment!

Friendly regards

Sincerely Yours

.....
